Emergency staircase in the turbine area of an hydroelectric plant

Staircases

- Height to serve: 4625 mm (1st floor) – 9250 mm (2nd floor)
- Tilt: 47°
- Useful width: 800 mm
- Anti-slip ribbed aluminum steps – depth 261 mm
- Ramp with yellow lacquered (RAL 1023) handrail and intermediary rail on the left and right
- Crane rings
- Aluminum corners for fixing in the upper and lower parts

The landing platform rests on adjustable aluminum brackets to adapt to the wall. In this case the wall is vaulted.
